### Who is this course for?

This is a career for people with strong interpersonal skills. As a WHS professional, you will be going into a workplace, overseeing workplace procedures and analysing the relevant risks and safety hazards involved in the process, and analysing the processes to produce improved policies ensuring the safety of the employees of the organisation. You'll be giving training and feedback to employees on workplace practices, something best done in a way that is not critical, but by motivating staff to achieve greater health and safety outcomes.

### Where can this course take you?

Compliance with work health and safety laws is mandatory, and many courses and individual units educate and train workers in how to comply with organisational and legislative rules. This qualification extends that knowledge and understanding. It is aimed at more senior tradespeople or business managers who require an in-depth understanding of the way in which Health and Safety can become a key platform in any organisation's safety culture.

*"This was the best online course... the assessments were very practical and relevant to my work. I was able to implement what I learnt into my job. Completing these qualifications definitely gives me a better chance to advance my career and it will help me to get a promotion."*
