- Project Management Estimators
- Civil Construction Foreman
- Construction Managers

Who is this course for?

Designed for working professionals, supervisors, and managers, you can study at your own pace and become qualified. With flexibility built in at every stage, you can maintain your work-life balance while building your future and Advancing your Career. This qualification is the visa entry requirement to work on the civil and oil and gas projects throughout the world. With infrastructure projects at an all time high and being pulled forward by governments, having your qualifications allows you to stand out from the crowd and gain a higher level position.

Where can this course take you?

Take the opportunity to get recognized for your experience as a project manager, supervisor, or foreman within Civil Construction. Gain your qualification to prove to employers you have the knowledge and experience to get the job done, and land that new job or promotion.

If you are looking for recognition of your previous experience to be able to move into a new job or industry, having this dual diploma will help you 'stand out' from the crowd. You will learn new skills to help you make a real difference in your council, and teach you how to manage complex projects.

"...The course helps most from time management to getting the opportunity to advance in my position and through the organization. The project management helped understand the entire process including understanding the regulations and legislation..."

— Jeb Walton
