## Who is this course for?

It is ideal for those already working in a WHS role looking to upskill and gain career advantage. Recognition of Prior Learning (RPL) is available. Completion of the BSB51319 Diploma in Work Health and Safety combined with suitable experience provides the opportunity to become a supervisor/manager or WHS Co-ordinator/supervisor/manager.

Diploma of Work Health and Safety (BSB51319) – for HSE Managers and other senior staff who already hold a Certificate IV In Work Health and Safety. This Diploma focuses on safety leadership and the skills needed to develop, implement and maintain an organisation's WHS management system. Students can also follow elective pathways in worker's compensation and return-to-work rehabilitation programs.

### Here's what one of our students thinks...

"The competency I completed was a requirement of my position as a SSE and will further enhance my knowledge of safety aspects in the work place. The friendly GTI staff were very helpful and I would recommend this safety training to all levels of management involved in any business where safety is paramount to their employees."

David Easton, Coolibah Quarries Operations Pty Ltd

## Where can this course take you?

When time is precious this course offers participants the option to study in their own time. Participants will learn how to review and audit health and safety management systems, apply continuous improvements, undertake high level risk management processes and develop corporate style policies and procedure to manage work health and safety processes.

The course will provide you with the skills and knowledge to investigate health and safety incidents, identify potential safety hazards, manage risks and comply with legal obligations. You will learn how to apply health and safety measures and initiatives to ensure that the organisation complies with work health and safety legislation and workplace policies to deliver a healthy and accident-free work environment to its employees.
