Who is this course for?

It is ideal for those already working or have previously worked in a WHS role looking to upskill and gain career advantage. Recognition of Prior Learning (RPL) is available.

Completion of the BSB51319 Diploma in Work Health and Safety combined with suitable experience provides the opportunity to become a supervisor/manager or WHS Co-ordinator/supervisor/manager.

Diploma of Work Health and Safety (BSB51319) – for HSE Managers and other senior staff who already hold a Certificate IV In Work Health and Safety.

This Diploma focuses on safety leadership and the skills needed to develop, implement and maintain an organisation's WHS management system.

Students can also follow elective pathways in worker's compensation and return-to-work rehabilitation programs.

When time is precious this course offers participants the option to study in their own time.

Participants will learn how to review and audit health and safety management systems, apply continuous improvements, undertake high level risk management processes and develop corporate style policies and procedure to manage work health and safety processes.

Here's what one of our students thinks...

"The competency I completed was a requirement of my position as a SSE and will further enhance my knowledge of safety aspects in the work place. The friendly GTI staff were very helpful and I would definitely recommend the course to others. It was a simple, easy to understand format and I had no problems understanding the content. I would recommend this safety training to all levels of management involved in any business where safety is paramount to their employees."

David Easton, Coolibah Quarries Operations Pty Ltd

Here's how to pay the least amount for your course...

JobTrainer

The Australian Government has partnered with participating State and Territory governments to create the JobTrainer subsidy for those needing new skills or recognition of existing skills, in order to gain employment.
